## Introducing the

# Christie DS+305

*Small, Bright, High Resolution for the Ultimate Images*

The Christie DS+305 is a compact 1-chip DLP® projector with 10-bit image processing and BrilliantColor™ processing for the ultimate image performance.

Weighing only 6.3lb, this compact projector delivers up to 3300 ANSI lumens, a 2500:1 contrast ratio and native SXGA+ resolution — perfect for meeting rooms, classrooms, training rooms, executive briefing centers and boardrooms.

New advancements the Christie DS+305 offers:

- 10-bit image processing featuring PixelWorks DNX™ deinterlacing and progressive scan conversion of 1080i input signals
- Updated DVI-I and HDMI inputs for compatibility with the latest high definition sources up to 1080P

The Christie DS+305 is equipped with a wide-range 1.7-2.2:1 zoom lens and  $\pm 100\%$  vertical lens shift. The Christie DS+305W features a 1:1 wide angle lens and  $\pm 80\%$  vertical lens offset.
